Hand Dyed Yarn Design by Julia Bauer

Wolkenkratzer

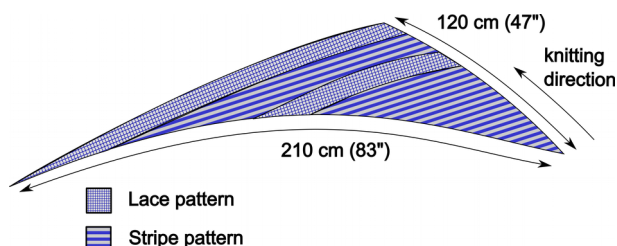

Wolkenkratzer (German for skyscraper) is a big, triangular, asymmetric shawl which is knit in one piece. The shawl consists of striped and laced parts. It is designed for solid or hand-dyed semi-solid yarn. The shawl's body is worked in stripes in garter stitch which alternates with a simple lace pattern. The patterns are easy to knit. Gauge is not critical and the dimensions can be adjusted easily. For this pattern a video tutorial is available.

Finished Measurements

The finished shawl measures
210 cm (83") x 120 cm (47")

Yarn

For the striped section (Color A & B):

Two skeins in different colors of sport or fingering weight yarn with 320 to 400 m per 100 g. 200 g in total.

For the lace section (Color C):

One skein of fingering or light fingering weight yarn with 400 to 450 m per 100 g. 100 g in total.

Using different yarn for the different sections creates a nice contrast between the two patterns. It is easily possible to use a thinner or thicker yarn. You can adjust the measurements of the shawl, too. Have fun!

Color

I used hand-dyed semi-solid yarn of blue and gray colors.

Gauge

Gauge is not critical. As mentioned before you can also use a thinner or thicker yarn.

21 st x 48 rows (garter stitch)

- One 80 cm (32") circular knitting needle in size **3,5 mm** (US 4)
